Subject: please remove Microsoft's education "Donation" from settlement terms. Thank you !

Please, don't give Microsoft an even Greater monopoly...by letting them make their "donation" of software to education.

It would hurt Apple Computer; who's contributed so much to our nations educational process year after year after year.

If it weren't for people for the "two Steve's" (Wozniak and Jobs); there probably wouldn't even BE personal computers in homes, workplaces, and yes, Judges Chambers.

Please don't give Microsoft any Unfair Advantage in the education sector.

Thank You,

-John Czaja
